

Hello Bellefonte Families and Community,

Please know that we are working tirelessly to ensure that your child has a safe learning environment upon their return. Our administrative team met this morning to ensure all plans and protocols are in place to make this happen. In the interim, during school closure there will be no formal instruction, however, resources will be shared with you within the next few days should you want to provide activities for your child. Remember, one of the best and most enjoyable activities you can do with your child (and your child(ren) can do independently) is read.

There will be lunches available at select sites through the YMCA and at a later date, as soon as our waiver with the State is approved, at additional sites throughout the community. These will be bagged lunches you may pick up during designated times. We will have a site on our district page within the next few days delineating the times and sites for these lunches.

This information site will also include links to current COVID-19 information, Q and A, resources, and any other information we feel will be helpful to you during these trying times. (For now you may find it under School News/Health, Safety, and Security: <https://www.basd.net/Page/14929>)

Please know, at this time, with anticipation of continued spread of the virus all field trips for the month of April have been cancelled. We will look at May's field trips as we get into mid-April.

Again, please wash your hands often, try not to touch your face, cough and sneeze into the crook of your elbow, utilize social distancing, and drink plenty of fluids.

Thank you and take care – Dr. Saylor
