New business: What do we buy the player this year?

Discussed buying items in which players turn in after the season such as what football does. Such as equipment bags. Should the school pay for these items if they are going to be used again?

Suggestion was brought up that the parents may be required to buy the shooter shirts this year instead of us buying them. Players would keep the shooter shirt.

Voted to go with the yearbook ad for the season. Cost was \$200
